

WHAT'S ALL THIS THEN?

You're going to need some materials. Don't worry, everything you need is right here.

BYOS-1_3.pdf

This is the meat of it all. A single page with icons for each of the important items in the Scrum framework.

BYOS-Headers.pdf

Half page headers using the same icons as the worksheet. Print them out, cut sheets in half, and you're set. Use them for the learning stations, the discussion of "what meeting comes first", and for reviewing the roles. Note: The facilitation guide does not use all of these headers, but they're included here just in case you want to use them yourself.

BYOS-Myth_or_Fact-Cards.pdf

Questions for the Meeting Myth or Fact learning stations. Formatted to be printed on 3"x5" cards. Put a stack in your printer and go!

BYOS-Myth_or_Fact-Cards-back.pdf

Take the stack of cards printed above, flip them over, and print this file onto their backs.

BYOS-Myth_or_Fact-Handout.pdf

In-depth answers to each of the myth or fact questions, just like in the facilitation guide, but unbranded so you can hand them out to your class after the debrief of this sections for them to take home.

BYOS-Workbook.pdf

A workbook for your students to use while participating in Build Your Own Scrum.

/Examples/

A few photos of Build Your Own Scrum workflows teams have built in the field.
